

Welcome

PT. META EPSI

Founded in 1975 as a new construction company has grown to become one of the national's integrated providers of comprehensive engineering, procurement and construction services for infrastructure, factory and industrial plant project in water, electricity, oil, gas and petrochemical fields.

With its vast experiences in Construction Core Businesses for over 25 years, through a prudent management strategy, a few years ago PT. META EPSI decided to launch strategic diversification of core business. PT. META EPSI expanded its line of business from Construction Services to cover Plant and Maintenance Services, Power Transformer Manufacturing, Independent Power Producer, Marine Culture and Agro Industry.

As Many other International Construction Companies, PT. META EPSI also had experiences in project financing from offshore lenders. The financing from foreign export credit agencies i.e KFW of Germany, COFACE of France and JEXIM of Japan (now JBIC), and from Japanese Leasing Agencies for lease and purchase arrangement were made available to finance PLN's project.
